Milan Design Week 2021: 20 Notable Collections for Decor Inspiration

Teeming with life, the striking pieces add vibrance to any space

— — — —

Make a style statement with this textile collaboration between Cyprus rug and wallpaper brand Yo2, and Singapore-Italian design studio Lanzavecchia + Wai. Entitled Biophilic Futures, the wallpaper collection features vibrant flora and fauna motifs teeming with life. This visual exuberance is visually extended to the rug collection, Biophilic Portals, which exudes cosy comfort by adding a tactile layer to any space. The futuristic forest-themed collections are crafted with the intention of bringing the beneficial effects of nature into interiors, whilst fostering a deeper connection between human beings and nature.
